# Impact Bahamas and Colonials Measuring Guide

**Bahama Shutter:** Measure the window and add 2 inches to both the width and the height.

Round up to the closest height on the graph below.

Please note the number of spans. Spans are the divisions between the blades.

The maximum span is 28 inches.

**Colonial Shutter:** Measure the window and add 2 inches to both the width and the height.

Round up to the closest height on the graph below.

Please note the number of spans. Spans are the widths of each section of the colonial.

The maximum span is 28 inches.

(There is a maximum of two spans per side of an opening, for a total width of 112 inches.)

Finished Heights for Impact Bahama and Colonial Shutters (in inches)

Height	Height	Height	Height	Height
11.125	28.75	46.375	64	81.625
13.75	31.25	48.875	66.5	84.125
16.25	33.75	51.375	69	86.625
18.75	36.375	53.875	71.5	89.125
21.25	38.875	56.375	74	91.625
23.75	41.375	59	76.5	94.125
26.25	43.875	61.5	79	96.625

Standard color for Colonial and Bahama Shutters is White. Black and Bronze are available at no extra charge. Custom colors will vary in cost.
